ONS00470  
10/773,853Remarks

Claims 10-20 are in the application. Claims 1-9 have been cancelled.

The allowance of claims 10-20 is noted.

Applicants respectfully request that the Primary Examiner recommend that this §312 amendment be entered and that the Director approve such recommendation for the following reasons. Applicants are submitting this §312 amendment to 1) correct a minor typographical error to independent claim 18; and 2) to amend dependent claims 11, 15 and 17 to have proper antecedent basis in view of the changes to claim 10 by Examiner Fetsum's amendment thereto. Applicants respectfully believe that they previously proposed the changes to claims 11, 15, and 17 to Examiner Fetsum during the discussions on claims 10 and 18, and that it was an inadvertent oversight that these changes were not included in the Examiner's Amendment included with the Notice of Allowance.

In view of all of the above, it is believed that this §312 amendment should be entered, which action is earnestly solicited.

Respectfully submitted,

Gordon M. Grivna
